## Executive Summary

---

The non-profits have a crucial role to play in this framework wherein, they can be active connections for citizen-oriented data, problem identification and resource mobilisation. The non-governmental organisations (NGOs) can ensure the accountability of governments and businesses towards SDGs. Not only do they create an enabling environment for the contribution to SDGs and its documentation but assist in also communicating the SDG progress and raising awareness amongst the citizens.

Thus, identifying the NGOs working in alignment with SDGs and catalysing their efforts by bridging the knowledge and action gap is strategic towards ensuring an accelerated track for SDG achievement. Through this report, a snapshot of the non-profit landscape of Haryana is presented, highlighting 152 organisations which are working in close alignment with the SDGs.

### Key findings of the report are as follows:

- **How many credible non-profits are found to be in alignment with SDGs?** –A total of 152 organisations were identified with 379 projects which are implemented in Haryana
- **Which are the key thematic foci of organisations?**- Education, healthcare, women empowerment & gender equality, skill development, child development emerge as the top 5 thematic thrust areas of the non-profits.
- **Which are the SDGs with which the work of maximum organisations is aligned?**- More than 50% non-profits work is in alignment with SDG4 (Quality Education) and SDG 3 (Good Health & Well Being), followed by approximately 25% which work towards SDG 1( No Poverty), SDG 5 (Gender Equality) and SDG 8 ( Decent Work and Economic Growth)
- **Are the non-profits working in convergence with the Government agencies to meet SDG targets?** - Only 5% of the organisations have projects in convergence with the Government agencies.
- **How many non-profits are locally based?** - 48% of organisations are headquartered in Haryana. The non-local organisations are based out of neighbouring states, except 10 organisations which are based out of Maharashtra, Karnataka and Tamil Nadu.
- **Which target groups are benefiting from the non-profits work?**-More than 50% of organisations implement projects targeting children, youth and general projects (multiple target-oriented public projects – such as Water ATM, Waste Management)
- **Which are the key thematic areas addressed through projects?** - The first three thematic areas of Education & Skill, Health care, Nutrition and WASH, and Women Empowerment, Gender Equality emerge as the key thematic areas of projects being implemented
- **Which are the key geographic foci of organisations in Haryana?** –Gurugram, Faridabad, Nuh and Sonipat are the districts with most projects and implementing organisations
- **Major geographies receiving funding for projects in alignment with SDGs** –Approximately 80%of funding coming towards projects being exclusively implemented in Haryanais dedicated towards Gurugram. Following 13% is distributed across Sonipat, Faridabad, Palwal and Karnal districts. Only the remaining 17% is distributed to projects across the rest of the 17 districts. Extracting data related to the funding was one of the major challenges faced during this study. The identified major geographies for funding are based on the projects for which data was available.
- **Who mentors/ leads the non-profits?** - The executive boards of the non-profits are heavily represented by domain experts, followed by a composite of multiple experts.

# Background

The UN General Assembly, and all its 193-member countries, in September 2015 adopted a global development vision entitled Transforming Our World: The 2030 Agenda for Sustainable Development. This 2030 Agenda was designed as a plan of action for people, planet and prosperity. It lays out 17 new Sustainable Development Goals (SDGs) and 169 targets, to stimulate global action over the next 15 years on issues critical to humanity and the planet. India committed to these SDGs at the September 2015 UN Summit and the SDGs officially came into force 1 January 2016 onwards.

## ***I. SDGs and India's Global Performance***

The UNDP India Country Programme Document (CPD 2018-2022), signed with the Government of India, aims at transformative change and development impact at scale. In line with this, UNDP has initiated active support to many state governments in mainstreaming SDGs within their schemes and programmes as a part of a UN system-wide to SDG roll out for visioning and planning in India.

In 2018, India received an Index Score of 59.1% and the Regional Average Score of 64.91%, standing at the 112th position amongst the 156 countries in the SDG Global Ranking<sup>1</sup>. While it scored more than 75% in its performance towards SDGs (1, 12, 13), the SDGs (2, 5, 9, 15, 17) fair less than 50% score. The report highlights the average progression for SDGs (3, 4, 6, 7, 8, 10, 11, 14, 16). India contributes to the absolute performance gaps in SDG 1 & 12). Furthermore, the independent reviews conducted for SDG 13 by experts show that except India, NDCs and current climate policies pursued by G20 countries are insufficient and, in some cases, critically insufficient to achieve the “well below 2°C” objective of the Paris Climate Agreement. Some countries have set insufficient targets, which they can

reach without implementing new policies. Others have implemented policies that will not even allow insufficient targets to be met.

In the next SDG ranking released in 2019, India's Index Score increased by 2% and the Regional Average Score increased by 1%. The SDGs (4, 8, 12, 13) scored more than 75%, whereas, SDGs (2, 9), rest scored more than 50%<sup>2</sup>. We observe that except SDGs (1, 2, 8) are on track in SDGs achievement, whereas, SDGs (2, 3, 6, 7) show moderate improvements. The trends for SDG (5, 9, 11, 13, 15, 16) have either been stagnating or deteriorating.

## ***II. Subnational Level SDG implementation and Haryana's Vision 2030***

At the sub-national level, state governments are at various stages of their 15-year vision and strategy roadmaps. Most of the state governments have matched strategic insights from the national development and 2030 agendas with their specific contexts and priorities. State Planning and Development departments are also operating as focal points for facilitating the process of SDG implementation by providing the necessary information and support<sup>3</sup>. Given India's commitment to the 2030 Agenda, Haryana has set ambitious targets for itself for achieving the SDGs within the state and has formulated its SDG Vision 2030 document. Haryana has prepared its Vision 2030 document following extensive consultations with a range of stakeholders. The strategies outlined in the document are based broadly on five principles – integrated planning and decentralized implementation, equitable development, building human capital, promoting citizen-centric services and green growth<sup>4</sup>.

1 Sdg Index & Dashboards Report 2018 - Global Responsibility, Implementing Goals, SDSN, United Nations.

2 The Sustainable Development Report 2019 – Transformations to Achieve the SDGs

3 Voluntary National Review Report 2017 – Implementation of SDGs, United Nations High Level Political Forum on Sustainable Development.

4 Government of Haryana 2017 – Vision 2030 for SDGs.

To implement the ambitious targets set for itself in SDG VISION 2030, the Government of Haryana has partnered with UNDP to establish Sustainable Development Goals Coordination Centre (SDGCC) under the aegis of Swarna Jayanti Haryana Institute of Fiscal Management (SJHIFM) as part of the Finance and Planning Department. The SDGCC is planned to primarily act as a capacity-building centre, a catalyst or resources centre, a think tank, knowledge centre and a monitoring post for all supporting departments and ministries of Government of Haryana. It encompasses the following key components:

- Build awareness and capacity of all stakeholders around SDG VISION of Haryana and its targets
- Propose integrated development solutions and innovations to accelerate SDG implementation; institutional mechanisms and policy changes to improve coordination and leveraging disruptive technologies and digital governance solutions to improve service delivery
- Adapt SDG VISION for local district level and GP level authorities in their plans and processes.
- Establish plans and systems to mobilize partners and resources.
- Develop sophisticated technology-based tools to monitor SDGs and ensure M & E systems are in place to collect data and monitor progress in target achievement as set in SDG VISION 2030 document.

### **III. Role of NGOs in SDGs implementation**

#### **● Ensuring the accountability of governments and businesses towards SDGs:**

NGOs play an important role in holding the government accountable towards their goals, closely monitoring the progress, highlighting

the problem areas and lobbying through their advocacy for integration and streamlining of SDG specific policies into governance framework. The most important added value of the SDGs in terms of this role is that it invites NGOs to create new coalitions for advocacy and accountability. In addition to its accountability towards the government, the NGOs can help in holding the private sector accountable for its responsibilities and commitments. Given the mandate of Corporate Social Responsibility (CSR) in India, businesses make commitments to contribute towards the SDGs. NGOs can be instrumental in ensuring transparency & coherence of these commitments with SDGs<sup>5</sup>.

#### **● Creating an enabling environment for contribution to SDGs and its documentation**

NGOs act as enablers and facilitators for implementing various development sector projects, providing infrastructural and human resources, sectoral expertise, understanding of the socio-economic context and familiarity with the communities. They are the direct contributors to SDGs and assist in mapping the progress of states towards achieving their SDG targets while creating focused interventions to accelerate the target achievement process. For example, without the commitment and widespread presence of non-profit health providers, the health condition of most of the world's population would be much worse than it is today, characterising its capability towards the achievement of SDG 3<sup>6</sup>. Thus, they form the actors as well as aggregators in providing supplementary, citizen-orientated data on national progress or stagnation concerning SDGs.

5 How do NGOs mobilize around the SDGs and what are the ways forward? - Working Paper by Elisabeth Hege, Damien Demailly (IDDRI)

6 Johns Hopkins Centre for Civil Society Studies – Working Paper Series 2015 - SDGs and NPIs – Private Non-profit Institutions – The foot soldiers for UN SDGs by Lester M. Salamon & Megan A. Haddock

- **Communicating the SDG progress and raising awareness**

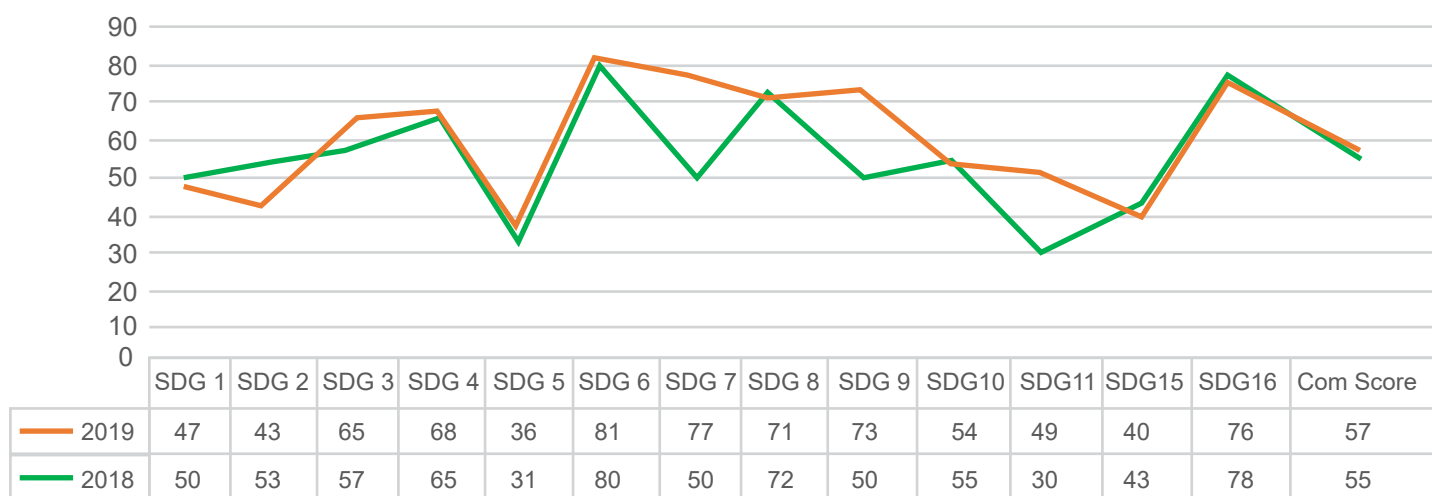

Enabling constructive dialogue between different stakeholders is at the heart of sustainable development, wherein, the civil society can analyse and supplement government reports. NGOs can be instrumental in disseminating the information to the citizens about the progress made towards the achievement of SDGs, making the policy processes more transparent. Raising public awareness through such processes empowers and encourages the citizens in making larger individual and collective contributions towards the SDGs.

Thus, identifying the NGOs working in alignment with SDGs and catalysing their efforts by bridging the knowledge and action gap is strategic towards ensuring an accelerated track for SDG achievement.

#### IV. Demystifying the SDG performance trends for the state of Haryana

Mapping the SDG trends in Haryana, we identify that Haryana has been a performer in meeting its SDG targets with the composite score of 57%<sup>7</sup>. While the state is a 'front runner' in SDGs (3, 4, 6, 7, 8, 9, 16), it remains an aspirant in all other SDGs, except SDG 7, 8, 9, 16). We see a remarkable increase in SDGs (3, 4, 7, 9, 15) as compared to the previous year data.

Figure 1 SDG wise index scores for Haryana

<sup>7</sup> SDG India Index - Report 2019, NITI Aayog & United Nations. (\*Comparison for SDG 13 & 14 not included in the graph since it was not mapped in 2018 Index).

# Objectives and Methodology

NGO mobilization is crucial to ensure the Sustainable Development Goals are implemented at the National as well as at the State Level to understand how the NGOs are taking specific action to communicate the SDGs to a broader audience.

## I. Objective

The key objective of the study is to identify credible non-profits working in Haryana and map their projects to the SDGs. The report dives deep into 150 NGO's that are actively operational in Haryana, giving a snapshot of their work. The report aims at helping the Government of Haryana understand the areas of operation of Non-profits in terms of their SDGs alignment & geographies of work. The report highlights the immediate gap areas which need to be closed through catalysing the work of NGOs in those areas.

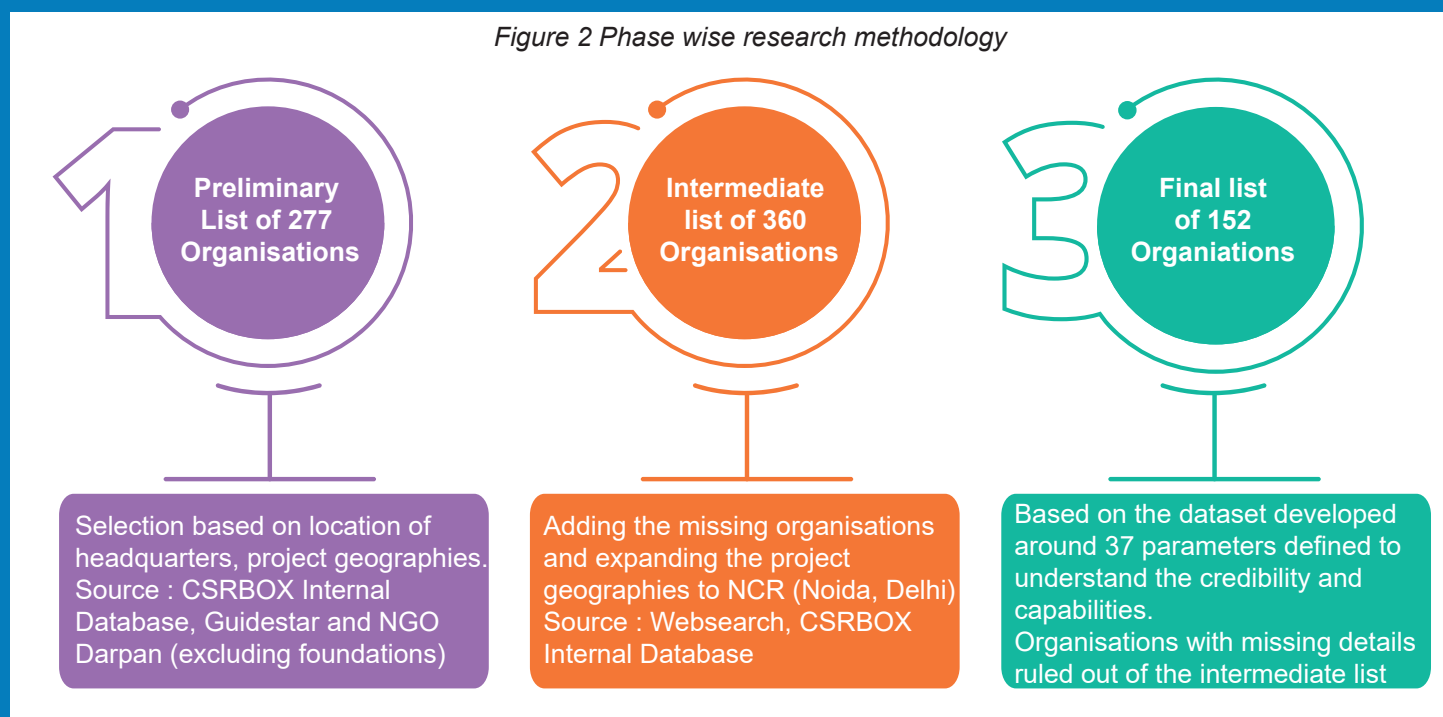

## II. Methodology

The project entails developing 'descriptive' data set for the non-profits in Haryana through a combination of secondary as well as primary research. The secondary research was

conducted through a review of official websites, annual reports, compliance data, credibility assessment and existing data base such as Guidestar, NGO Darpan, CSRBOX. For the missing data, the primary research approach was adhered with one-on-one interaction with the non-profits through telephonic conversations. The research method is designed around two key aspects of credibility and capability to arrive at the best 150 non-profits operational in Haryana.

The following figure provides the methods and rationale for each phase of the project. In the first phase, a preliminary list of 277 organisations was longlisted based on the locations of NGO headquarters and project geographies. In the second phase, an intermediate list was shared which consisted of non-profits from the Delhi-NCR region (Delhi, Noida). Further, based on the dataset developed around 39 parameters to understand the credibility and capability of these non-profits, a list of 152 organisation was finalised.

Figure 2 Phase wise research methodology

The following table lists the parameters, defining the scope and the rationale for their inclusion in the study:

Table 1 List of study parameters and its rationale

Sr. No.	Parameters	Description & Rationale
1	Establishment Year	A number of years since the organisation is operational to map its experience over the period.
2	Website (link)	Source to authentic & updated information
3	Headquarter Address	Identifying locally-based organisations
4	Headquarter (City/District)	
5	Headquarter (State)	
6	Office Locations in Preferred Geography	The geographic presence within Haryana & local resources
7	Office Locations Districts in Haryana/NCR	The geographic presence within Haryana & local resources
8	Contact Details	Approachability/ accessibility
9	Email ID	
10	Awards/Recognitions	Credibility/ recognition within sector
11	Average Annual Income of the Organization (in INR Cr.)	Financial resources of the organisation & its capability for project initiation
12	Average Annual Expenditure of the Organization (in INR Cr.)	The scale of the organisation w.r.t to project implementation
13	Board composition (Corporate, veteran government and domain experts)	Mentors/leaders and their affiliations to establish credibility as well as experiential bandwidth.
14	Focus Thematic Areas	Sectoral strength of the organisation
15	Major Funding Partners	Key collaborators for funding, the credibility of the agency
16	Title of the Project	Flagship projects of the organisation

<b>17</b>	Description of Project	Details about the project (problem, solution, implementation)
<b>18</b>	Project Financial Year	Duration of the project
<b>19</b>	Project Donor Agencies (Filter - Govt, CSR, Philanthropic/ NGOs, bilateral/multilateral, Others)	Larger and well-recognised funding partners like bilaterals/ multilaterals, CSR arms, etc have stringent due diligence guidelines which allow us to establish the credibility of the non-profits. The 'others' filter includes funding from HNI, crowdsourcing and funding partners not mentioned.
<b>20</b>	Name of Project Funding Partners	
<b>21</b>	Target Group	To which section of society does the non-profit cater to; This gives an idea about the expertise and resources of the non-profit within the given set of the target group.
<b>22</b>	Relevant Thematic Area (Schedule VII of Companies Act)	Key thematic area of the non-profit based on the flagship projects/ programmes
<b>23</b>	Sub-Thematic Areas	Sub-thematic area of the non-profit
<b>24</b>	Key Terms/Sub-thematic Areas	Keywords to address linkages between various projects
<b>25</b>	Relevant SDG	SDGs alignment with the existing projects of the NGO based on the key thematic area
<b>26</b>	SDG Indicators (Reference NITI-Aayog)	Key indicators addressed through work
<b>27</b>	Linkages with Government Schemes	Response - (Y/N), if Y, Mention the name of the agency to understand which government agencies are working with the non-profits and how convergence and synergies can be improved

<b>28</b>	No. of Beneficiaries	Number of beneficiaries to build the scale of impact created through the organisation's work
<b>29</b>	Amount Spent in FY (in INR Cr.)	The scale of financial resources give a sense of the organisation's capability as well as credibility to undertake projects
<b>30</b>	Amount spent in Haryana (INR Cr.)	Amount of percentage spent in Haryana, with respect to the total budget shows which organisations are spending a maximum of their funds in a geographically focused manner
<b>31</b>	Location (State)	The geographic focus for the project implementation
<b>32</b>	Location (District - only Haryana)	
<b>33</b>	Aspirational Districts (No, dist1, dist2)	Geographic presence & local resources within aspirational districts
<b>34</b>	Haryana specific government agency associated with the NPO (Yes/No)	To understand which government agencies are working with the non-profits and how convergence and synergies can be improved
<b>35</b>	Name of the Haryana Specific Government Agency	
<b>36</b>	NGO Registration Number	Unique identification for the non-profit
<b>37</b>	NGO FCRA Registration No.	Unique identification for the non-profit
<b>38</b>	Link of Annual Reports	Reference documents for verification

## Analytics and Key Findings

The study brings out a total of 152 organisations actively working in the Haryana/ NCR region with 379 projects being implemented in the defined geography over the last two years. Out of these 152 organisations, approximately 48%, i.e. 73 organisations, is headquartered in Haryana. While analysing the project geographies, we understand that INR 38.38 crores of project funding has dedicated to 26 projects which are being exclusively implemented in the state, whereas a larger consolidated corpus of INR 91.02 crores can be identified for 49 projects being implemented in Haryana along with other states within India. The key challenges while extracting the data related to funding include unavailability of public data and lack of willingness of organisations to disclose funding data during primary research.

Table 2 Identified Organisations, Projects and Funding

No. of Organizations	152
No. of Projects Implemented in Haryana/NCR in the last 2 years	379
No. of Organizations headquartered in Haryana	73
Amount funded for the Projects (in INR Cr.)	91.02* (49 Projects)
Amount funded for the projects specifically in Haryana (in INR Cr.)	38.28* (26 Projects)

### *I. Location of Headquarters*

Tracing the headquarter locations of each organisation provides us with the following breakup. The 799 non-Haryana based organisations are distributed majorly across 7 states across India. Out of the 79, 69 are based out of the neighbouring states of Delhi (63), Uttar Pradesh (3), Rajasthan (2) and Himachal Pradesh (1). The remaining are distributed across the states of Maharashtra (5), Karnataka (3) and Tamil Nadu (2).

Figure 3 Headquarter-wise Classification of Organisations

## II. Composition of Board Members

Majority of the organisations, 2/3rd of the total (100 in number) are being led by the board members with domain expertise, whereas, rest 1/3rd of the total (49 in number) is being headed by multi-sectoral entities. We find little representation of organisations led by corporate experts and government veterans. The high number of domain expertise in these organisations highlights the capability to take up sector-specific projects - in terms of technical know-how, partnerships and leadership.

Figure 4 Composition of Board Members in the Organisations

### III. Thematic Foci of Organisations

Out of the 20 defined thematic areas, the top 5 thematic foci are of – education (71), healthcare (52), women empowerment & gender equality (32), skill development (30) and child development (26). The thematic areas of Road safety (1), Technology (1), Hunger & Poverty (2), Recycling & Waste Management (2), Sports (3), Heritage, Art, Craft & Culture (3), & Old Age Homes (3) emerge as the ones receiving least focus from the pool of organisations being studied.

Figure 5 Major thematic areas focused by the Organization

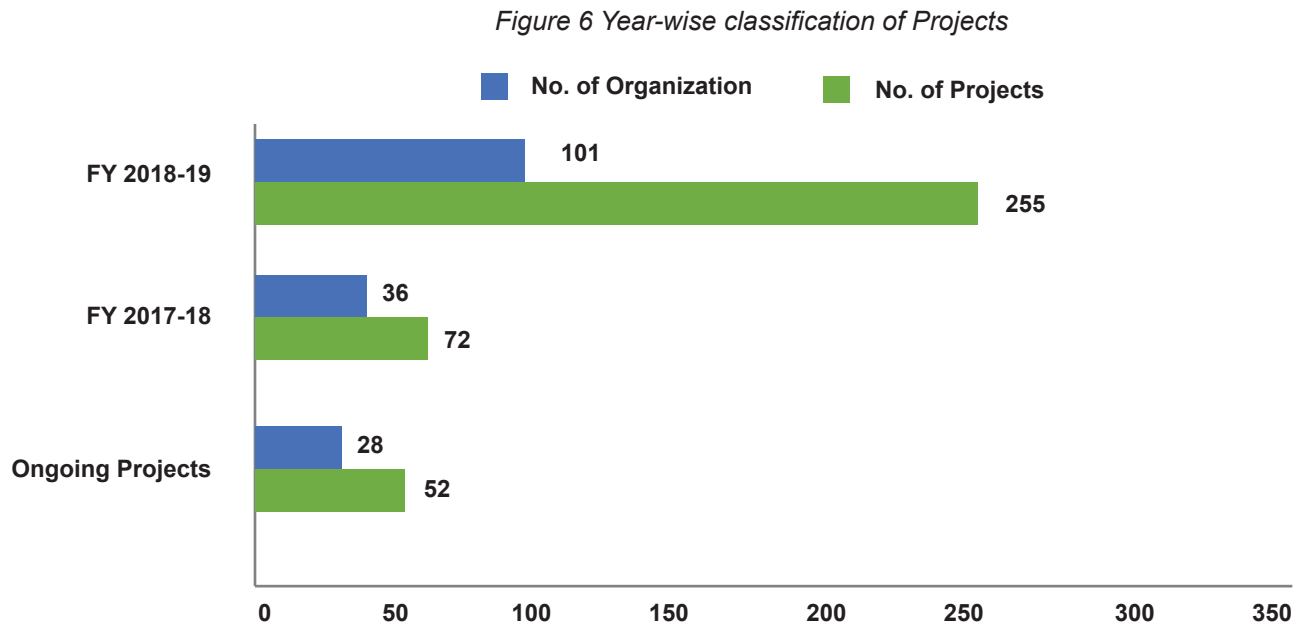

#### IV. Project Implementation and Duration

The number of projects initiated in each financial year and their corresponding organisations increased from 72 to 255 and 36 to 101, respectively, in the year 2018-19, as compared to the year 2017-18. While the increase is remarkable, we observe that on an average, the project-organisation ratio remained constant across the two years.

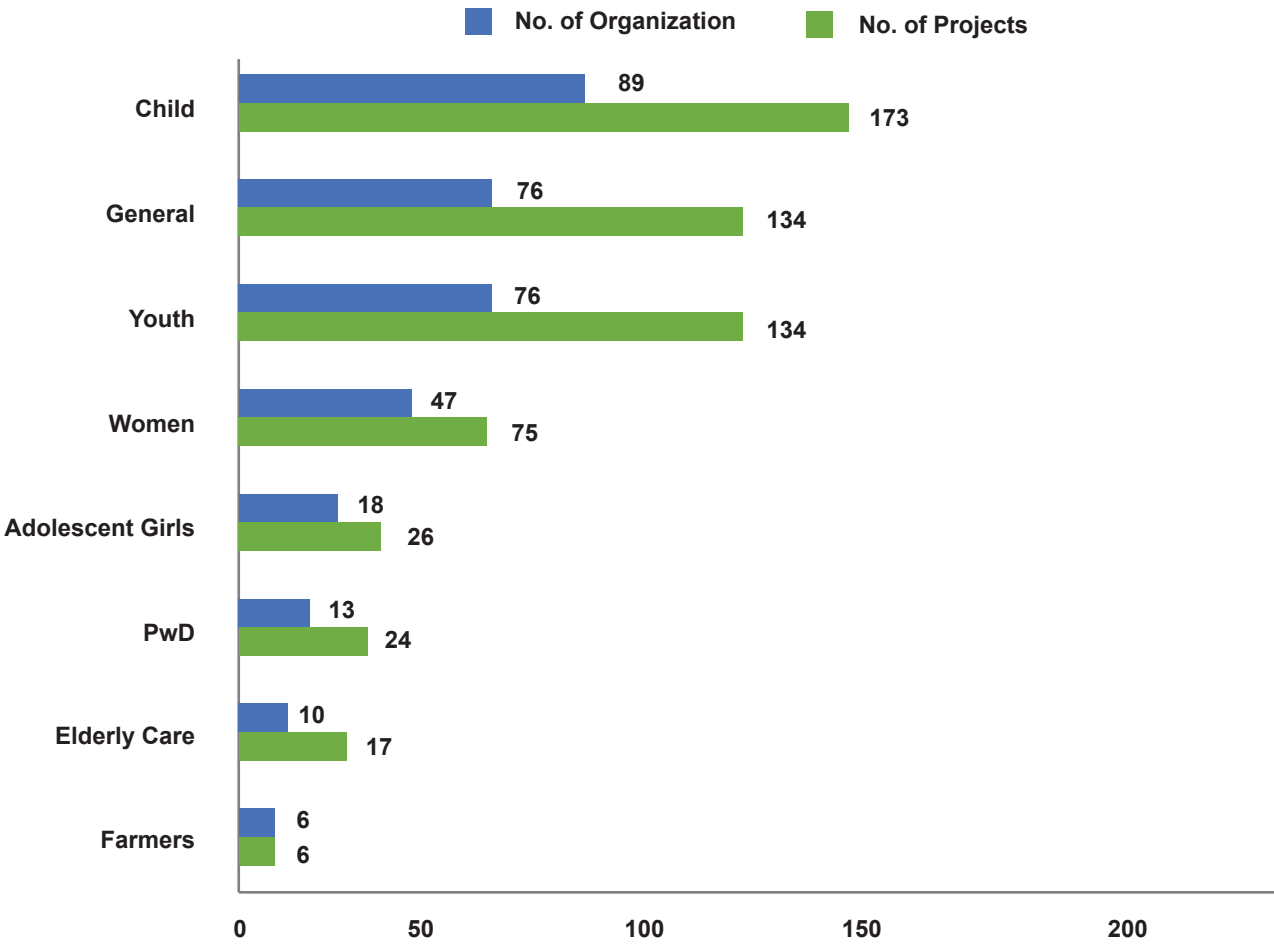

We identify 28 organisations working on 52 projects spanning over a year or more and are ongoing currently. The ongoing projects are those which have been initiated previously and are planned for more than 4-5 years with a larger programmatic approach.

### V. Target Groups

More than 50% of organisations implement projects targeting children, youth and general projects. The general target group identifies multiple targets at the same time, e.g. Drinking water ATM at public places addressing a large section of the unclassifiable population. We identify that farmers, Elderly, Persons with Disability (PwD) and Adolescent Girls are targeted by fewer organisations, approximately 10% only. Given the multidisciplinary nature of the projects, we also find multiple target groups being addressed.

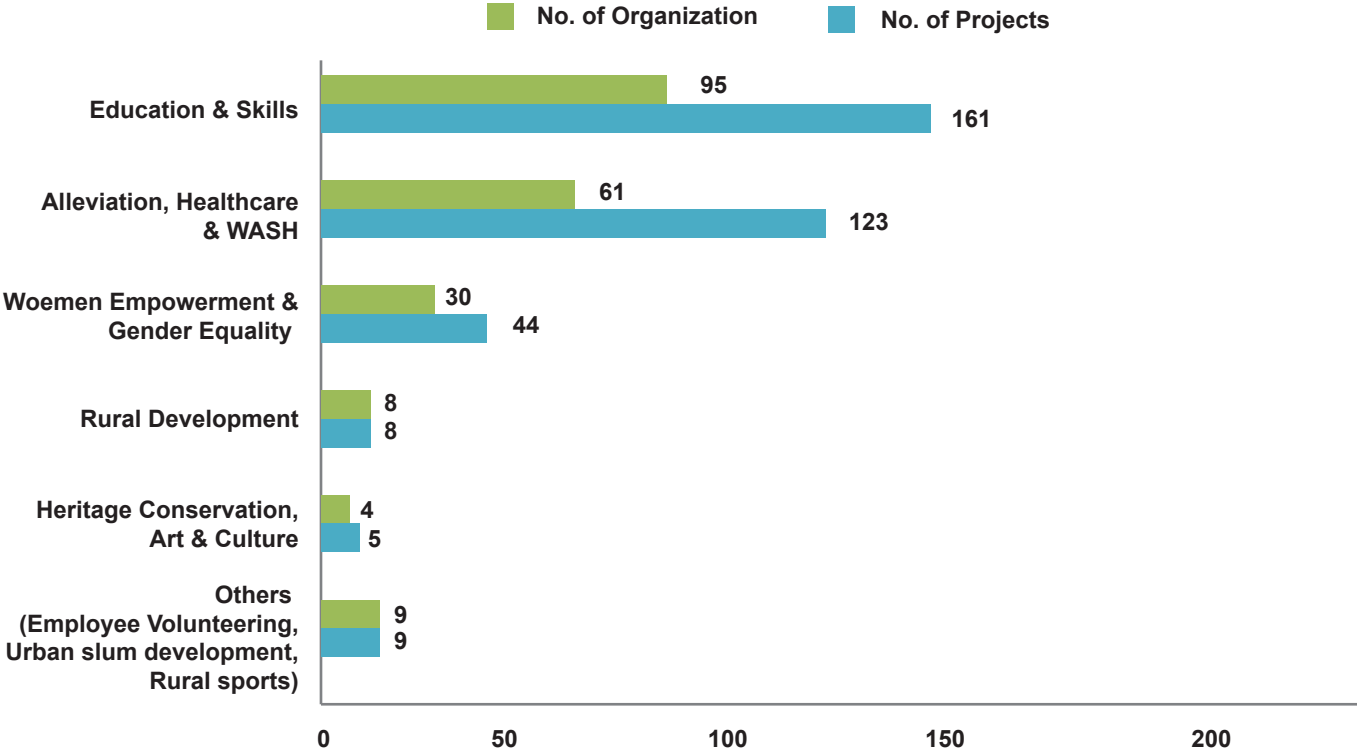

Figure 7 Classification of Projects based on Target Groups

**VI. Thematic Areas**

The following figure provides details in terms of several organisations and projects within each thematic area. Here, we identify and align the two with the thematic areas defined as per the Schedule VII of CSR Guidelines. The first three thematic areas of Education & Skill, Healthcare, Nutrition and WASH, and Women Empowerment & Gender Equality cover more than 328 projects. However, details borrowed from the following table highlight that despite receiving large number, the projects account for smaller share in funding as compared to the thematic areas of Environmental Sustainability & Wildlife, and Rural Development, which tend to be cost-intensive projects.

Figure 8 Thematic Area-wise Organisations and Projects

**VII. SDGs Addressed**

SDG4 (Quality Education) and SDG 3 (Good Health & Well Being) are being addressed majorly through the organisations and the projects being executed. SDG 6 (Clean Water & Sanitation), SDG 2 (Zero Hunger), SDG 13 (Climate Action), SDG 7 (Affordable & Clean Energy) emerge as SDGs being least addressed. We find the absence of any organisation or project which encompasses the targets associated with SDG 9 (Industry, Innovation and Infrastructure).

Figure 9 SDG-wise Projects & Organisations

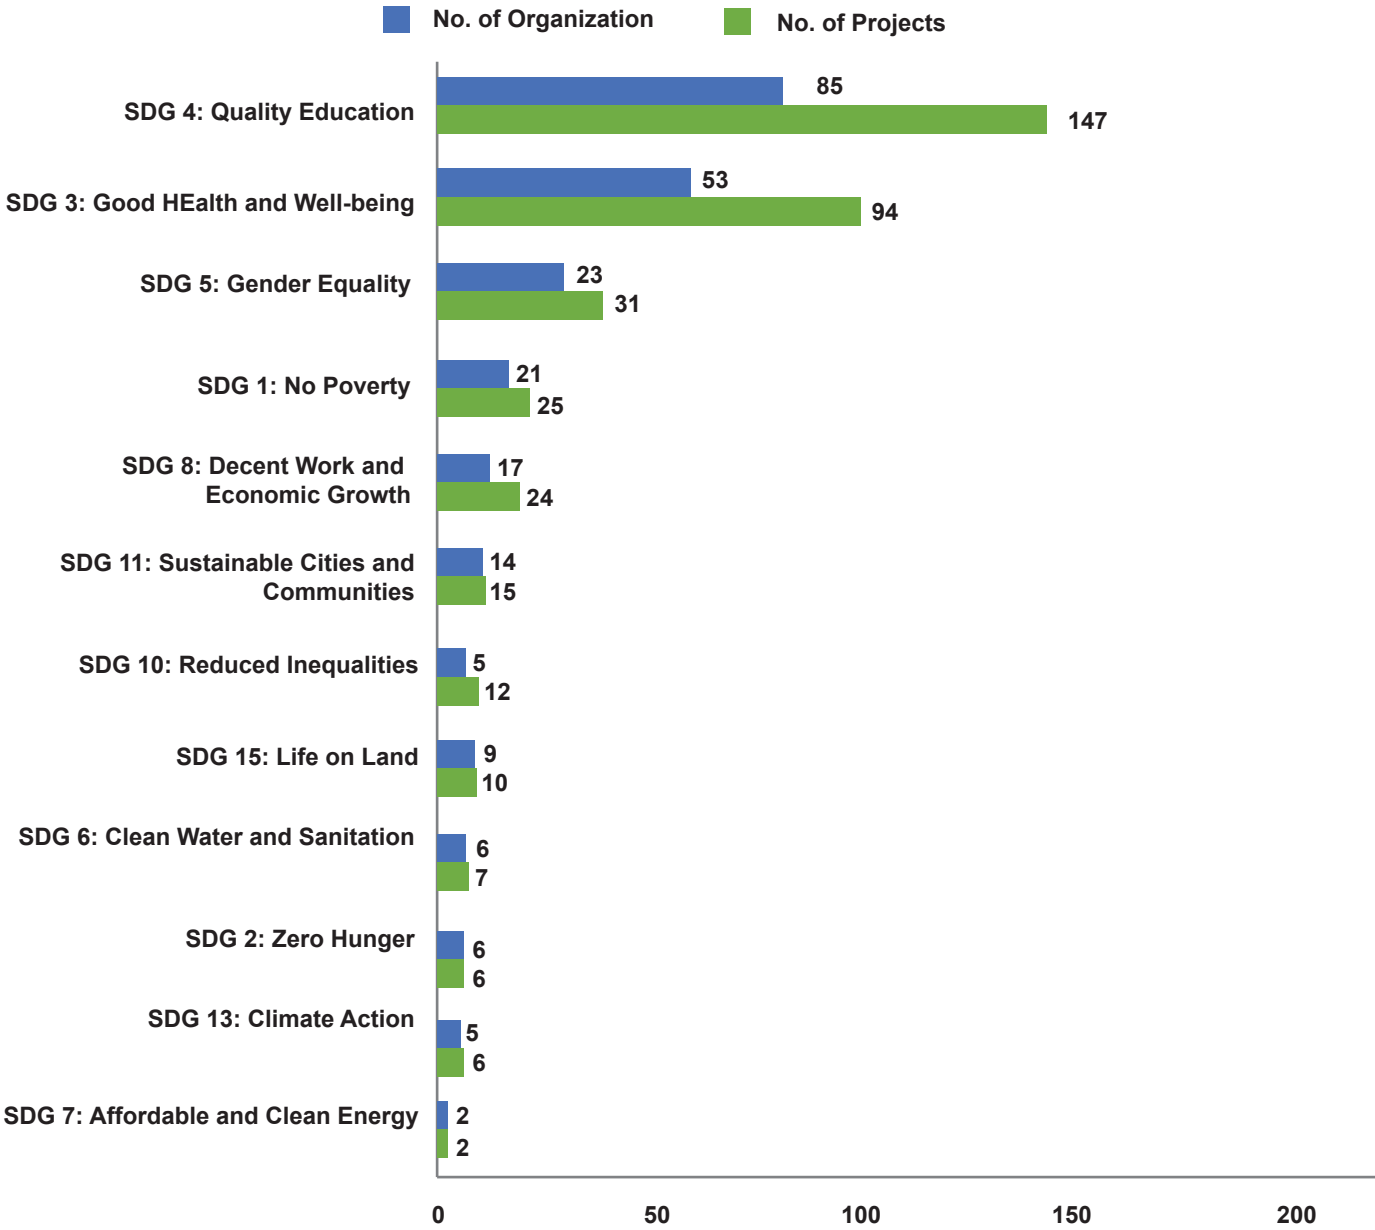

Table 3 SDG-wise Projects, Organisations and Expenditure

SDG	No. of Projects	No. of Organization	Amount Spent* (in INR Cr.)
<b>SDG 4: Quality Education</b>	147	85	51.69
<b>SDG 3: Good Health and Well-being</b>	94	53	5.68
<b>SDG 5: Gender Equality</b>	31	23	1.25
<b>SDG 1: No Poverty</b>	25	21	8.9
<b>SDG 8: Decent Work and Economic Growth</b>	24	17	7.74
<b>SDG 11: Sustainable Cities and Communities</b>	15	14	Not Available
<b>SDG 10: Reduced Inequalities</b>	12	5	4.4
<b>SDG 15: Life on Land</b>	10	9	1.27
<b>SDG 6: Clean Water and Sanitation</b>	7	6	1.67
<b>SDG 2: Zero Hunger</b>	6	6	Not Available
<b>SDG 13: Climate Action</b>	6	5	8.44
<b>SDG 7: Affordable and Clean Energy</b>	2	2	Not Available

### VIII. Spatial Distribution

The following figure shows the geographic spread of the projects of the organisations. Gurugram, Faridabad and Nuh emerge as the most popular districts with the highest number of projects being undertaken. Whereas, the districts of Hisar, Ambala, Sirsa, Mahendragarh, Kurukshetra, Bhiwani, Fatehabad and Yamunanagar have low project turnout. A high number of projects (24) are observed being executed pan-Haryana or don't identify with a specific district.

Approximately 80% of funding coming towards projects being exclusively implemented in Haryana. i. e. INR 31 Cr. is dedicated towards Gurugram. Following 13% is distributed across Sonapat, Faridabad, Palwal and Karnal districts. Only the remaining 17% is distributed to projects across the rest of the 17 districts.

Figure 10 Spatial distribution of organisations & projects within the state

We observe that the districts along the eastern periphery of the state act as the operational areas for the majority of the organisations and thus, most of the funding is also concentrated in these districts (refer figure 10,11, 12, 13).

Figure 11 Spatial distribution of no. NGOs in alignment with SDGs

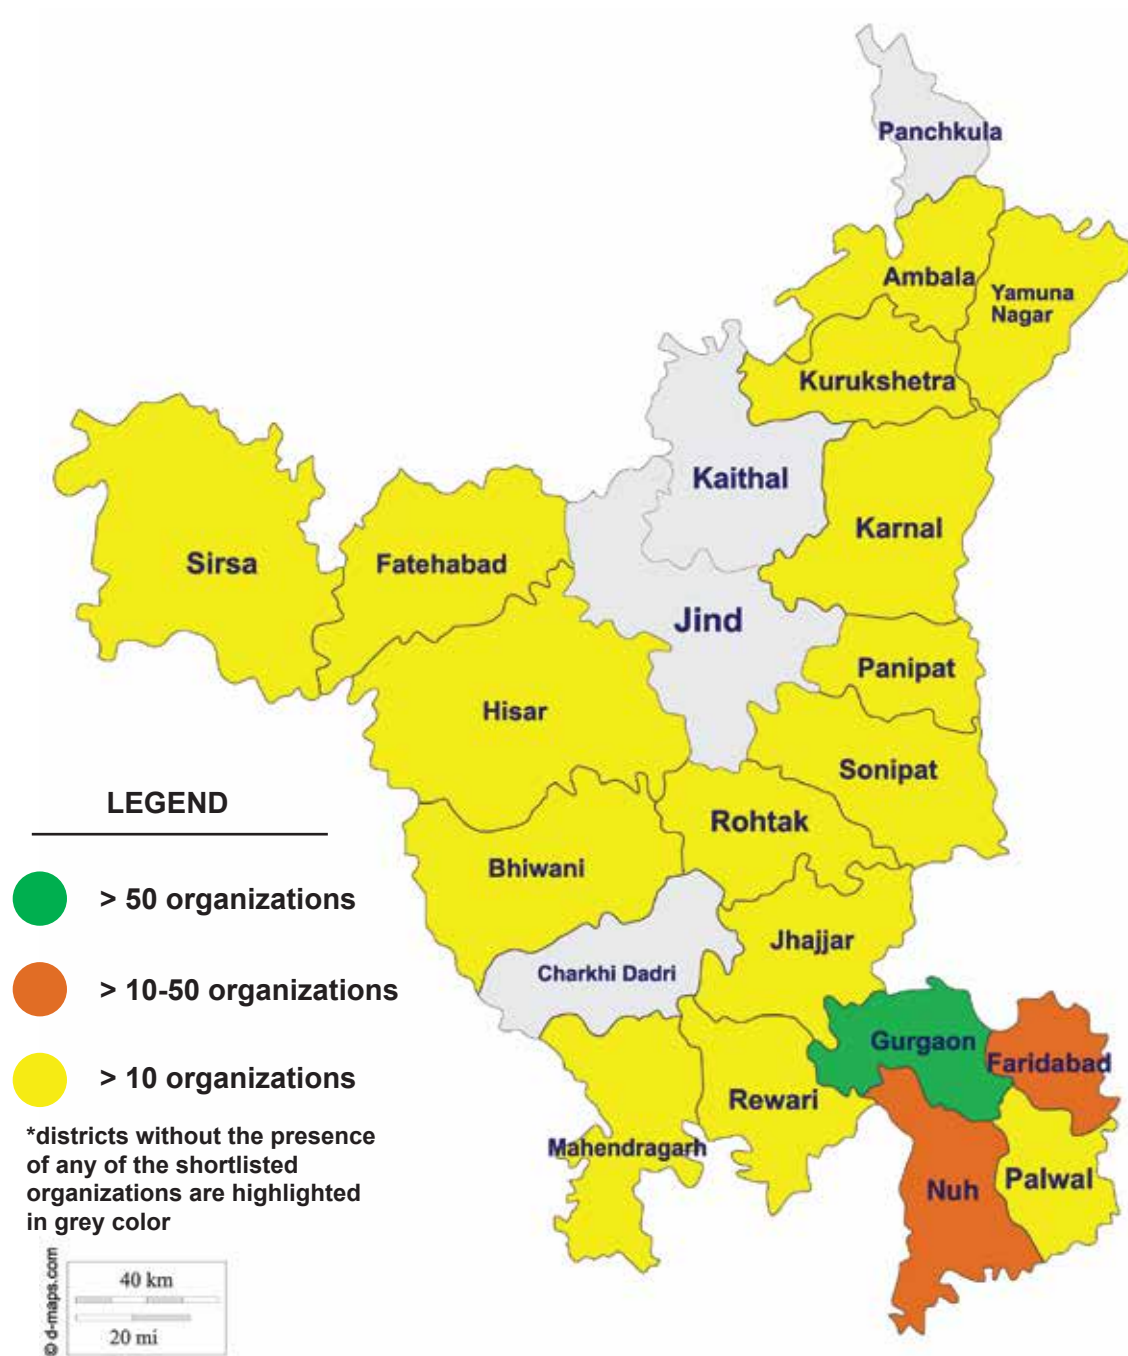

Figure 12 Spatial distribution of no. of projects of NGOs in alignment with SDGs

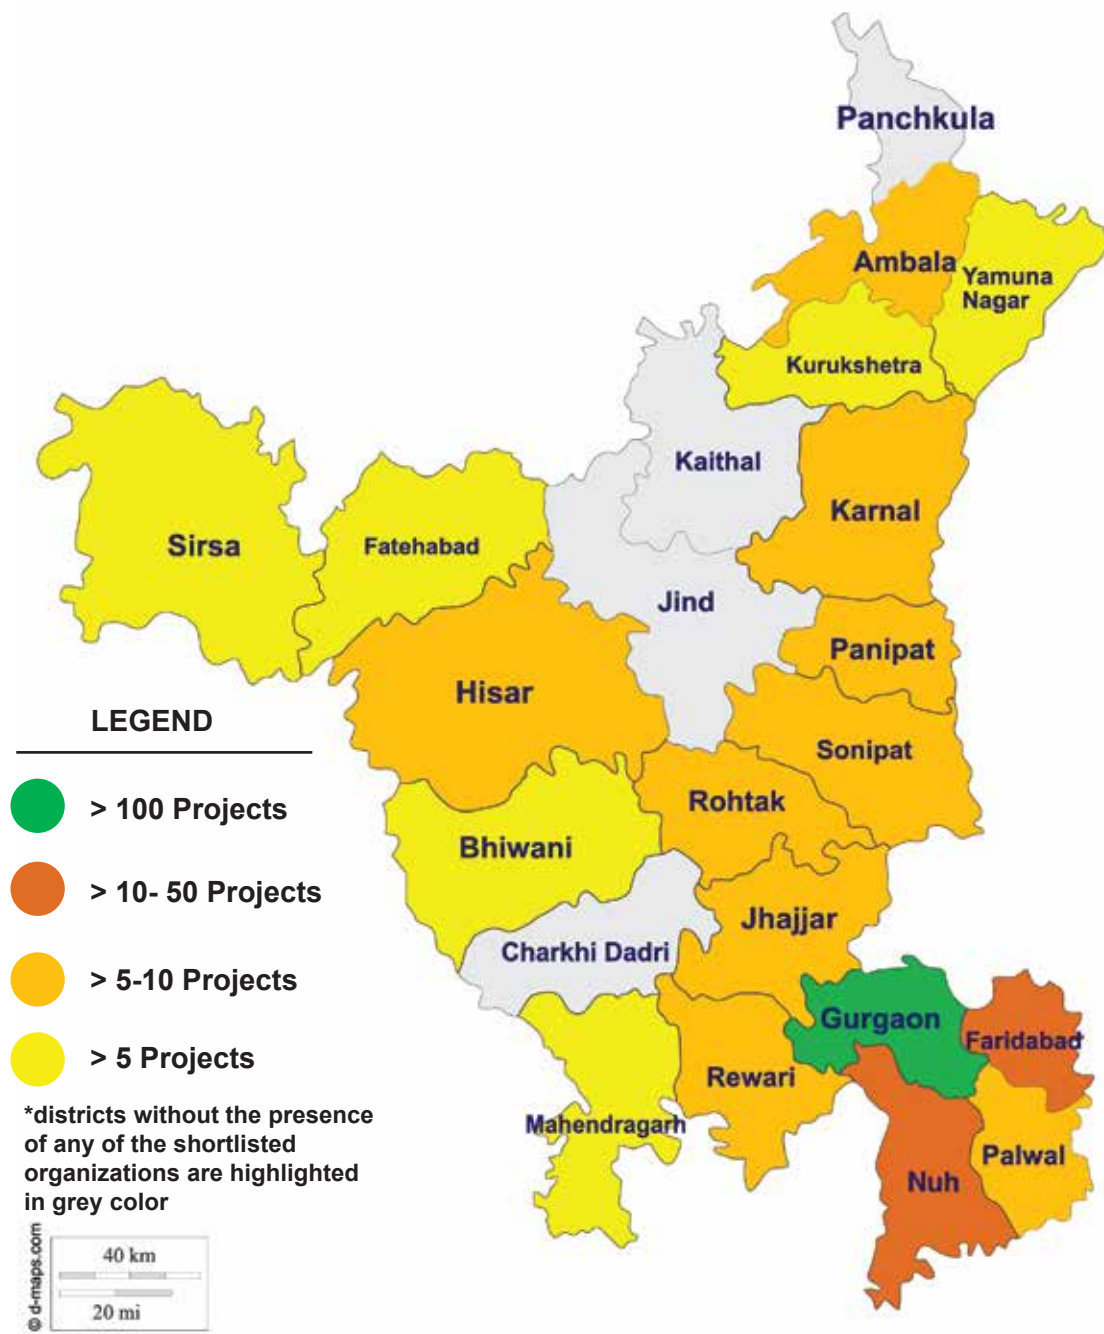

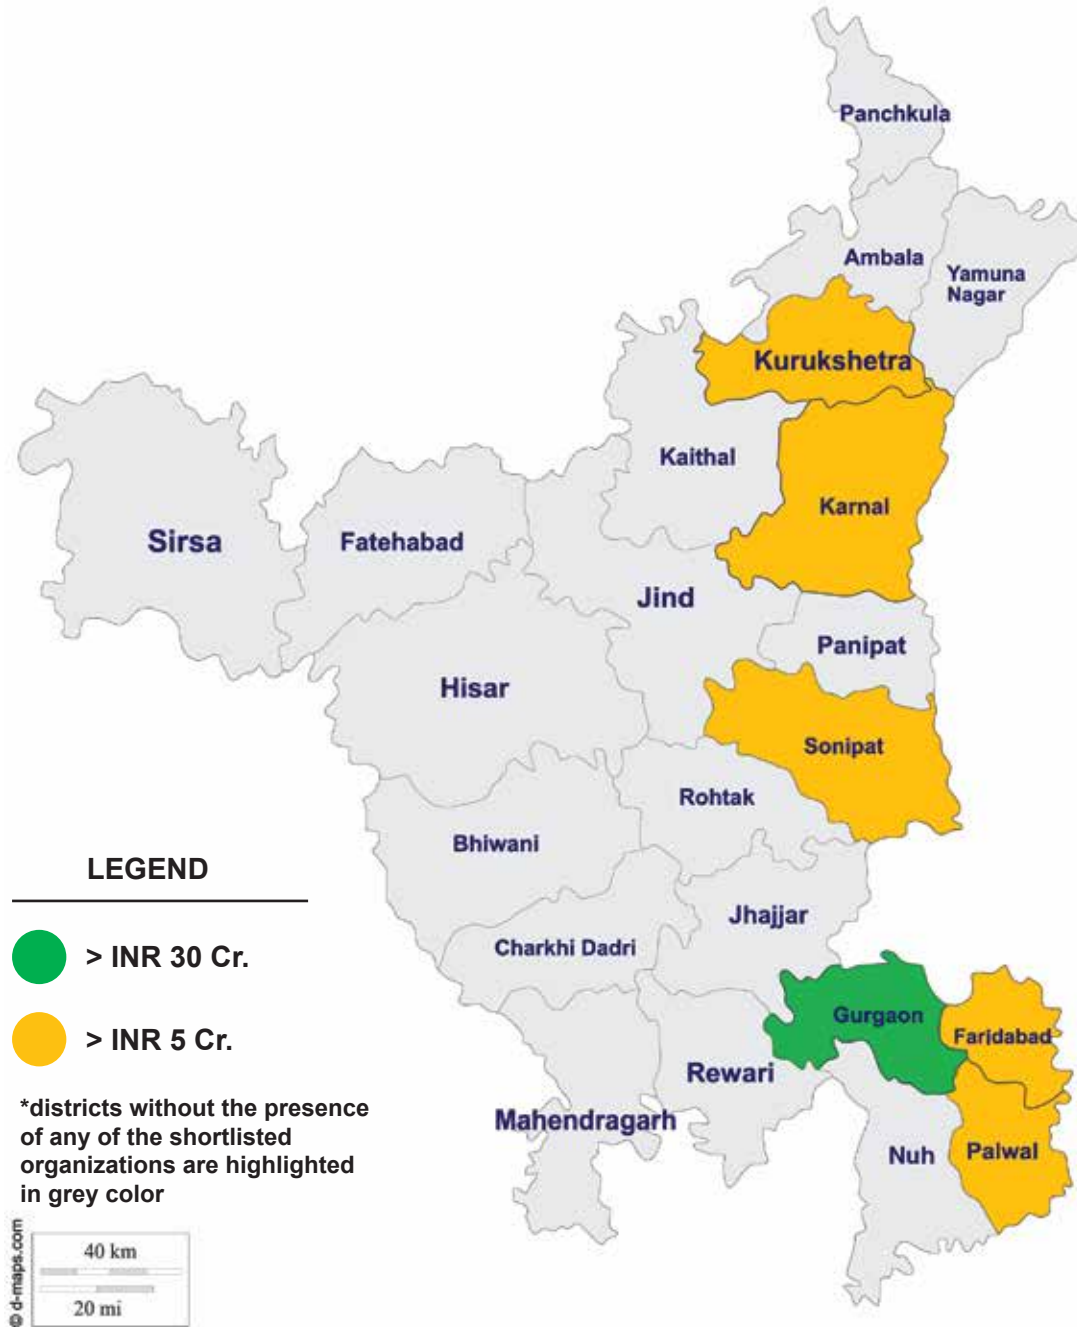

Figure 13 Spatial distribution of funding received by NGOs in alignment with SDGs (excludes pan-Haryana)

## ***IX. Government Partnerships***

Out of 379 projects, only 19 projects i.e. 5%, are being implemented in collaboration with government agencies. The study identifies 11 different government agencies from various sectors of rural development (NABARD, District Rural Development Agency – Gurugram), education (HBSE, HSSPP, Dept of Education – Haryana), health (Dept of Women & Child Development – Gurugram) and others including Public Governance & Administration (Municipal Corporation of Gurugram, Chief Minister’s Good Governance Association – Gurugram, Prison Administration, Forest Department).

## Key SDGs and Non-Profits

While we understand the alignment of NGOs with SDGs, it is essential to dive deep into the emerging top 5 SDGs which characterise a large quantum of development projects being executed by these organisations. Based on our findings of this study, we identify SDG 4, SDG 3, SDG 5, SDG 1, SDG 8 as the top five areas.

We observe that the districts along the eastern border of Haryana remain the hotspot for the work of NGOs in alignment with top 5 SDGs. While districts of Gurugram, Faridabad, Palwal, and Karnal receive focused interventions in more than 4 SDGs of the top 5 SDGs, the districts of Jind, Charkhi Dedri, Panchkula and Kaithal remain unattended.

Further analysis provides the details of Haryana specific challenges, vision and targets with respect to SDGs and the flagship projects for each with reference to the Haryana SDG Vision 2030. The projects have been chosen based on criteria like the scale of the project in terms of funding/ beneficiaries reached/ number of locations, etc.

**SDG 4**  
**(Quality Education)**

## **I. SDG 4 (Quality Education)**

Rapid technological changes present opportunities and challenges, but the learning environment, the capacities of teachers and the quality of education have not kept pace with it. Refocused efforts are needed to improve learning outcomes for the full life cycle, especially for women, girls and marginalized people in vulnerable settings. The SDG 4 (Quality Education) addresses this issue by ensuring the inclusive and equitable quality of education and promoting lifelong learning opportunities for all.

### **SDG specific challenges for Haryana**

Low enrolment of children in schools & Anganwadi, low learning outcomes (below the national average) and gender gap between boy and girls at school.

### **Haryana's SDG Vision 2030**

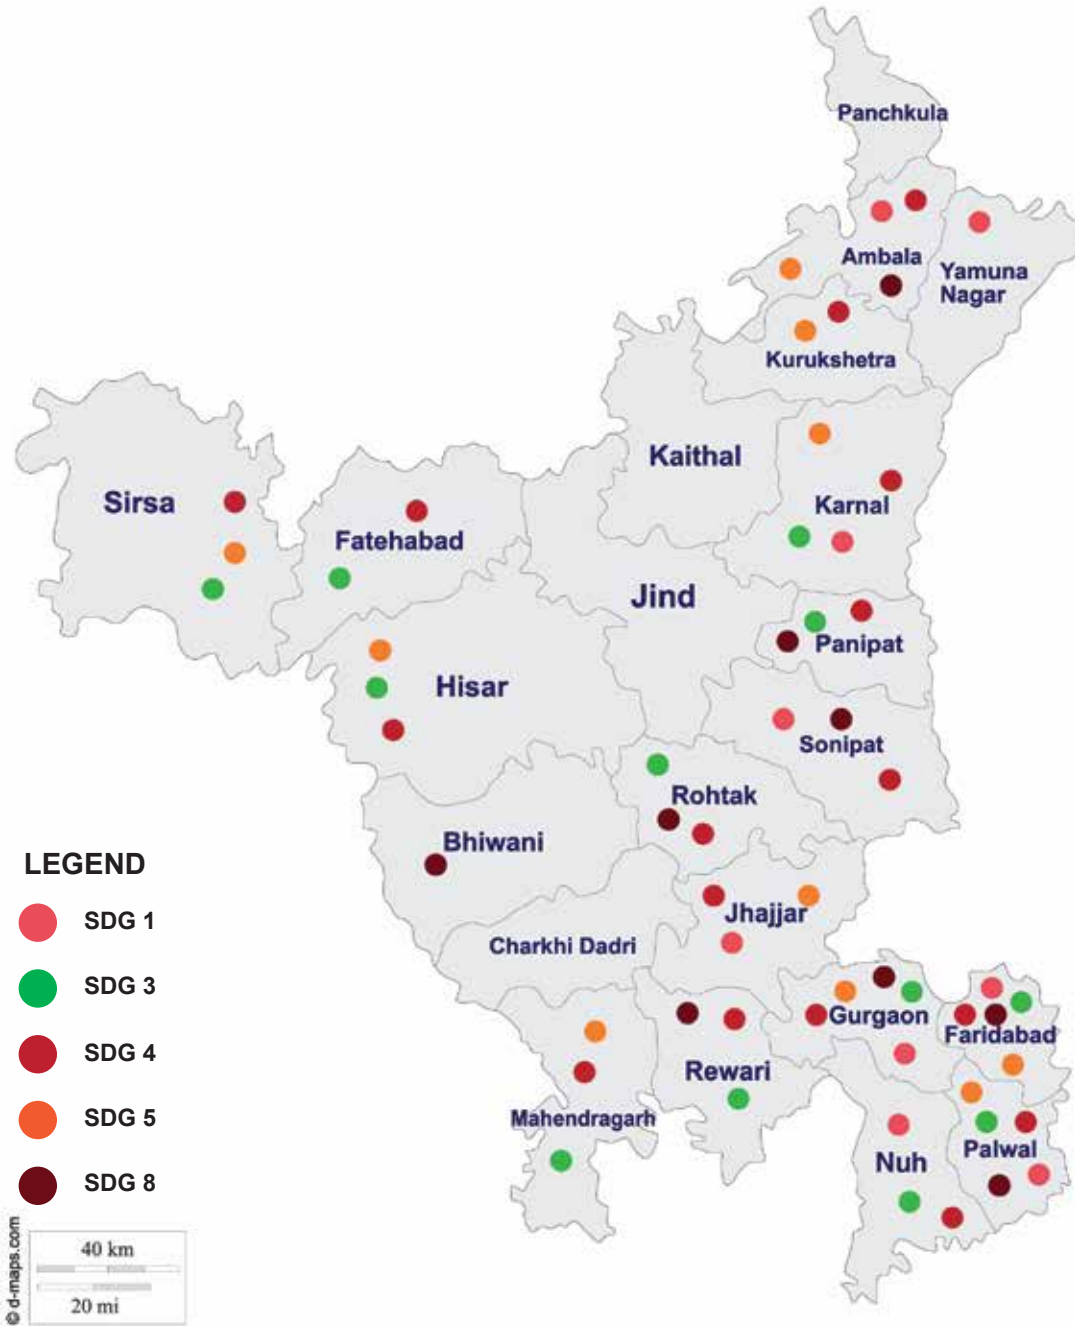

Eliminate gender and other disparities at all levels in education and ensure equal access to affordable and quality education and vocational training for all.

### **Targets 2030 for Haryana**

- 100% of children enrolled in pre-primary education
- Achieve a net enrolment ratio (NER) of 97 at the primary level and 95 at the upper primary level
- 95% of students from Classes I-VIII to be at grade level competencies
- Increase the transition rate from Class V to Class VI to 100% for both, girls and boys
- Provision of skills in education and employability through all senior secondary schools and secondary schools
- Maintain 'no Malaria' status for the state

Figure 14 Spatial presence of top 5 SDGs emerging from NGOs projects

<b>A) Project Title: Bal Vihar</b>	
Name of the Organization: VIDYA Integrated Development for Youths and Adults	
<p><b>Thematic Area:</b> Promotion of education, special education and vocational skills</p> <p><b>Sub Thematic Area:</b> Education Programs, Art, Craft &amp; Culture</p>	<p><b>Funding:</b> 0.77 cr.</p> <p><b>Implementing Partners:</b> NA</p> <p><b>Location:</b> Gurugram, Haryana</p> <p><b>Duration:</b> Implemented in 2018-19</p>
<p><b>Summary of Organization:</b> VIDYA is a non-profit NGO. Over <b>34 years</b>, they have impacted the lives of <b>3,75,000 people</b>, more than half of which include girls and women. Founded in 1985 by Ms Rashmi Misra, it began with her teaching a class of five girls in her home on the campus of IIT Delhi. Now, they have <b>78 projects</b> and growing, spread across <b>Delhi, Gurugram, Bangalore, Mumbai &amp; Pune</b>. They build capacity to surmount limitations, achieve goals and become leaders of social change. Their method is to address skills and values. Their vision is to be the fountainhead for empowering and transforming lives through education. They dream of seeing an India where every child gets a quality education, every youth an opportunity to succeed, and every woman achieves economic and social independence. literacy as multifaceted– encompassing academics, vocations, mental and physical wellbeing, life skills, awareness to a fast-evolving global society, communication</p> <p><b>Project Synopsis:</b> Bal Vihar was VIDYA's first project, still running and thriving. It's an English-medium primary school that now serves 350 students from Preschool to Class 5. It imparts a unique holistic education with arts, culture, and sports, and has provided education to over 12,000 children over the years. It has achieved a no drop out the status and has created a generation of parents and learners who value education</p> <p><b>Impact:</b> 350 children</p>	
<p><b>SDG Indicators (Reference NITI-Aayog):</b> Adjusted Net Enrolment Ratio at Elementary (Class 1-8) and Secondary (Class 9-10) school</p>	

<b>B) Project Title: Integrated community development program</b> Name of the Organization: Society for All Round Development (SARD)	
<b>Thematic Area:</b> Promotion of education, special education and vocational skills <b>Sub Thematic Area:</b> Education Programs, Technology, Education Infrastructure (Hostel, School Buildings, Benches, Desks)	<b>Funding:</b> 2.1 Cr. <b>Implementing Partners:</b> Magneti Marelli <b>Location:</b> Gurugram, Haryana <b>Duration:</b> Ongoing Long Term projects
<p><b>Summary of Organization:</b> Society for All Round Development (SARD) is a non-profit organization established in 1996, which aims to increase the participation of minority and disadvantaged communities in mainstream development processes. SARD's goal is to empower these groups, particularly women and adolescent girls, by improving their access to quality education and health services; providing vocational training; introducing micro-credit schemes; and promoting environmentally sustainable income-generating activities. Its thrust is to build the organizational and leadership capacities of its stakeholders. SARD takes a holistic and integrated approach to development that favours the sustainability of its programs by providing people access to tools, training and structures them need.</p> <p><b>Project Synopsis:</b> The organisation has started the Integrated Community Development program in partnership with Magneti Marelli to establish Model School integration of technology with science. The project was started in 2017 and is expected to end in 2021. Most of the activities in close coordination with local administration, a convergence of resources, staff retention, enhance the educational performance of children, improving health status and increase employability. Sustainable human development through the integration of activities, empowering local stakeholders through training and exposure, ensuring convergence with like-minded organisation and govt.</p> <p><b>Impact:</b> Children from slums and local villages in the age group of 3-18 years and their families</p>	
<p><b>SDG Indicators (Reference NITI-Aayog):</b> Adjusted Net Enrolment Ratio at Elementary (Class 1- 8) and Secondary (Class 9-10) school Average annual drop out rate at secondary level</p>	

<b>C) Project Title: Resource Mobilization to improve Education</b>	
Name of the Organization: Language and Learning Foundation	
<p><b>Thematic Area:</b> Promotion of education, special education and vocational skills</p> <p><b>Sub Thematic Area:</b> Education Programs, Skill Development, Teacher's Training Program</p>	<p><b>Funding:</b> 1.81 Cr.</p> <p><b>Implementing Partners:</b> Haryana School Shiksha Pariyojana Parishad (HSSPP), Central Square Foundation</p> <p><b>Location:</b> Kurukshetra, Haryana</p> <p><b>Duration:</b> Implemented in 2018-19</p>
<p><b>Summary of Organization:</b> Early language and literacy skills are the basis of all future learning in schools. If these are not developed well in the early years, children will not be able to catch up in later grades with school texts becoming denser and more abstract. Therefore, strengthening teaching-learning for developing early literacy skills among students is crucial. The Language and Learning Foundation (LLF) was formed in 2015 to develop and implement a variety of professional development opportunities for teachers, teacher educators and other stakeholders in the area of early grade student learning with a specific focus on language and literacy.</p> <p><b>Project Synopsis:</b> LLF rolled-out a demonstration project in Haryana in early 2018-19. It has been a comprehensive and multi-layered project implemented in collaboration with the Haryana School Shiksha Pariyojana Parishad (HSSPP) of the Government of Haryana. The objective of this intervention is to strengthen the academic support that can be provided by the State Resource Group (SRG) which could include Block Resource Persons (BRP), Assistant BRPs among others, to Hindi Teachers and develop a state-specific Early Literacy and Learning Package. To achieve this objective the focus has been on building capacity of state resource persons in terms of conceptual knowledge and classroom practices to effectively support teachers in literacy package and language development process in early grades and to implement the literacy package developed by LLF in Haryana. Technical support for the implementation in one district to demonstrate improved student learning is also being carried out in Kurukshetra district.</p> <p><b>Impact:</b> 186 teachers have been trained in early language and literacy (ELL) framework and 3454 students of grade 1 have benefitted from ELL training.</p>	
<p><b>SDG Indicators (Reference NITI-Aayog):</b> Adjusted Net Enrolment Ratio at Elementary (Class 1-8) and Secondary (Class 9-10) school, Average Annual Drop out rate at secondary level, Percentage of school teachers professionally qualified, Percentage of elementary and secondary schools with pupil teacher ratio less than/equal to 30</p>

**SDG 3**  
**(Good Health & Well Being)**

## **II. SDG 3 (Good Health & Well Being)**

Concerted efforts are required to achieve universal health coverage and sustainable financing for health, to address the growing burden of non-communicable diseases, including mental health, and to tackle antimicrobial resistance and determinants of health such as air pollution and inadequate water and sanitation. SDG 3 (Good Health & Well Being) addresses these concerns by ensuring healthy lives and promoting well-being for all at all ages.

### **SDG specific challenges for Haryana**

High maternal mortality rate (MMR), the neonatal mortality rate (NMR) and higher prevalence of cases of malaria in certain districts.

### **Haryana's SDG Vision 2030**

Provide access to easy and affordable health care to all its residents to ensure a reduction in maternal and neonatal deaths as well as the incidence of communicable and noncommunicable diseases.

### **Targets 2030 for Haryana**

- Maternal mortality rate reduced from 127 to 70 per 100,000 live births
- Neonatal mortality rate reduced from 24 to 12 per 1,000 live births
- Under5 mortality rate reduced from 43 to 25 per 1,000 live births
- Adult HIV prevalence reduced from 0.13% to 0.05%
- Maintain 'no Malaria' status for the state

<b>A) Project Title: Last Mile Healthcare</b>	
Name of the Organization: Prayas Social Welfare Society	
<p><b>Thematic Area:</b> Eradicating hunger, poverty and malnutrition, promoting health care, sanitation &amp; safe drinking water</p> <p><b>Sub Thematic Area:</b> Mobile Medical Unit, Hospital Infrastructure, Medical Camps, Surgeries, Healthcare Awareness &amp; Rehabilitation</p>	<p><b>Funding:</b> 1.83255 Cr</p> <p><b>Implementing Partners:</b> NA</p> <p><b>Location:</b> Haryana</p> <p><b>Duration:</b> Ongoing Long-Term Project</p>
<p><b>Summary of Organization:</b> Prayas Social Welfare Society was established on 20.09.1999 and is purely a Non-Govt. Social service regd. Organization (NGO) having a non-political, non-religious and non-commercial character and is mainly engaged in imparting completely free education to the children from the families belonging to economically weaker section and backward class of the society.</p> <p><b>Project Synopsis:</b> Prayas Social Welfare Society also runs a health care program for Underprivileged sections of the society through six charitable allopathic dispensaries and one Mobile dispensary. They also organize free health check-ups, Eye check-ups and blood donation camps from time to time in collaboration with certain Institutes. In the month 4500- 5000 patients belonging to poor strata avail free medical facilities from their health care centres. Their Doctors also visit nearby villages on different days at different places from time to time.</p> <p><b>Impact:</b> 4000-5000 Patients every month</p>	
<p><b>SDG Indicators (Reference NITI-Aayog):</b> Number of governmental physicians, nurses and midwives per 1,00,000 population</p>	

<b>B) Project Title: Preventive Healthcare: Targeting anaemia control in 4 villages</b> Name of the Organization: MAMTA Health Institute for Mother & Child	
<p><b>Thematic Area:</b> Eradicating hunger, poverty and malnutrition, promoting health care, sanitation &amp; safe drinking water</p> <p><b>Sub Thematic Area:</b> Hospital Infrastructure, Medical Camps, Surgeries, Healthcare Awareness &amp; Rehabilitation, Adolescent Girls Initiatives</p>	<p><b>Funding:</b> NA</p> <p><b>Implementing Partners:</b> Maruti Suzuki Foundation</p> <p><b>Location:</b> Rohtak, Haryana</p> <p><b>Duration:</b> Implemented in 2018-19</p>
<p><b>Summary of Organization:</b> In more than <b>25 years</b> of its existence, MAMTA has adopted the life-cycle approach towards maternal and child health and its goal is to provide equity, and quality health for the marginalized, especially women and children. Continued collaborations with international organizations encouraged MAMTA to work with the community and create participatory models of running its programmes. Thereby setting the ball of ownership by the community rolling and forming a commitment to being strongly evidence-based in its approaches.</p> <p><b>Project Synopsis:</b> Taking forward the “Anaemia Mukh Bharat” Campaign of the Government of India, MAMTA with support of Maruti Suzuki Foundation has initiated a preventive healthcare intervention targeting anaemia control for coverage population of 23435 across 4 villages of district Rohtak in Haryana. The primary beneficiaries are adolescent girls 10-19 years (both, in school and out of school); non-pregnant women and non-lactating women (NPNL) 19-49 years; pregnant lactating women (PLW); children 0-59 months and children 6-9 years. The project has three key components; community awareness, system strengthening and sectoral convergence. Peer Mentors are the backbone of the intervention.</p> <p><b>Impact:</b> 23,435 People covered</p>	
<p><b>SDG Indicators (Reference NITI-Aayog):</b> Maternal Mortality Ratio, Under five mortality rate per 1,000 live births</p>

**SDG 5**  
**(Gender Equality)**

### **III. SDG 5 (Gender Equality)**

While the world has achieved progress towards gender equality and women's empowerment under the Millennium Development Goals (including equal access to primary education between girls and boys), women and girls continue to suffer discrimination and violence in every part of the world. The SDG 5 (Gender Equality) contributes towards achieving gender equality and empowering all women and girls.

#### **SDG specific challenges for Haryana**

Low female participation in the workforce, inflation in kidnapping and molestation cases and lowest child sex ratio amongst all states in India

#### **Haryana's SDG Vision 2030**

Envisioning women as fully economically empowered in a secure environment by 2030, with wide-ranging implications for all social indicators linked to education, health and nutrition and especially in achieving parity in infant and child sex ratios.

#### **Targets 2030 for Haryana**

- Eliminate the unemployment gap between men and women
- Reduce crimes against women to 12%
- Achieve total gender parity in the birth ratio

<b>A) Project Title: Adarsh Skill Development Center</b>	
Name of the Organization: Adarsh Samaj Sahyog Samiti	
<p><b>Thematic Area:</b> Gender Equality, Women empowerment, senior citizens and economically backward groups</p> <p><b>Sub Thematic Area:</b> Skill Development Infrastructure, Women Empowerment, Rural Livelihoods</p>	<p><b>Funding:</b> 0.04 Cr.</p> <p><b>Implementing Partners:</b> Singer India Pvt. Ltd</p> <p><b>Location:</b> Faridabad, Haryana</p> <p><b>Duration:</b> Implemented in FY 2018-19</p>
<p><b>Summary of Organization:</b>  A Social Non-Government Organization engaged in social welfare activities aimed at alleviation of human suffering and all-round amelioration of society especially for the poor, helpless &amp; weaker sections. The organization spreads the idea of friendship and fraternity amongst the people. It provides education to the people and helps them to develop moral values. It also uplifts the women's status in society and works for mother and child care.</p> <p><b>Project Synopsis:</b>  Adarsh Skill Development Center to impart skill in the field of sewing, beauty parlor, Mehandi Art, and Computer for women was initially started by the organization in April 2018. For this centre, they purchased 26 Sewing Machines of Different varieties such as hand-driven, Leg driven, Power-driven, Design-oriented Machines, Industrial machine.</p> <p><b>Impact:</b> Not Available</p>

**SDG 1 (Poverty)  
(Good Health & Well Being)**

#### **IV. SDG 1 (Poverty)**

While the number of people living in extreme poverty has remarkably reduced in the last two decades, too many people are still struggling to meet their basic needs. The SDG 1 (Poverty) aims to end poverty in all forms everywhere.

#### **SDG specific challenges for Haryana**

Low literacy rate, high poverty, low women's participation in the workforce, lack of permanent housing

#### **Haryana's SDG Vision 2030**

To ensure livelihoods and income opportunities to all vulnerable people living in poverty in all its dimensions; and to provide easy access to health, education, housing, basic services and social protection as well as risk mitigation across the state.

#### **Targets 2030 for Haryana**

- To eradicate extreme poverty by 2030
- To double agricultural incomes by 2022
- To enhance employability and opportunities of non-farm labour through skill development
- To increase ease of access to government services/schemes
- To ensure gender equality with regard to access to basic resources
- To ensure health, education and housing for all by 2030
- To develop a risk mitigation plan for health risks, droughts and floods
- To sanction drinking water connections for 31 lakh rural and 11 lakh urban households

**SDG 8**  
**(Decent Work and Economic Growth)**

## **V. SDG 8 (Decent Work and Economic Growth)**

While the developing countries have grown at a rate faster than developed countries, sustained economic growth will be critical for fulfilling the international development targets within the next 15 years. Stronger economies will afford us more opportunities to build a more resilient and sustainable world. The SDG 8 (Decent work & Economic Growth) targets promotion of sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.

### **SDG specific challenges for Haryana**

Sustaining the existing progress towards economic growth and development to raise the per capita income and employment.

### **Haryana's SDG Vision 2030**

To position Haryana as a pre-eminent investment destination and facilitate balanced regional and sustainable development supported by a dynamic governance system and wide-scale adoption of innovation and technology, as well as skill development for nurturing entrepreneurship and generating employment opportunities.

### **Targets 2030 for Haryana**

- Attract at least 10 lakh crore of investment in emerging sectors
- Generate 18 lakh jobs throughout the state Increase the workforce participation rate for females to 30%
- Increase the number of MSMEs provided with loans to 1,00,000
- Increase the skilled labour force to 5,00,000 persons

<b>A) Project Title: Abilities Beyond Skills</b> Name of the Organization: Pravah	
<b>Thematic Area:</b> Promotion of education, special education and vocational skills <b>Sub Thematic Area:</b> Skill Development	<b>Funding:</b> 2.99 Cr. <b>Implementing Partners:</b> Castrol <b>Location:</b> Uttar Pradesh and Haryana <b>Duration:</b> Ongoing Long Term Projects
<p><b>Summary of Organization:</b> Pravah is a youth-led and youth-centric organization with an aim to develop the leadership capacities of young people to unleash their ability to bring about transformational social change.</p> <p><b>Project Synopsis:</b> The project aims to build the life capacities of two-wheeler mechanics i.e. build knowledge, skills, attitudes and behaviours in them to get work, stay in work, do their job well and in the long run establish themselves as successful entrepreneurs.</p> <p><b>Impact:</b> Not available</p>	
<p><b>SDG Indicators (Reference NITI-Aayog):</b> Annual growth rate of GDP per capita (at constant price of 2011-12), Average unemployment rate per 1000 persons for males and females</p>	

<b>B) Project Title: Project Title: Changelooms</b> Name of the Organization: Pravah	
<b>Thematic Area:</b> Promotion of education, special education and vocational skills <b>Sub Thematic Area:</b> Skill Development, Urban Livelihoods	<b>Funding:</b> 4.60 Cr. <b>Implementing Partners:</b> Charities Aid Foundation and US Government <b>Location:</b> Pan India <b>Duration:</b> Ongoing Long Term Projects
<b>Summary of Organization:</b> Pravah is a youth-led and youth-centric organization to develop the leadership capacities of young people to unleash their ability to bring about transformational social change.	
<b>Project Synopsis:</b> The Project aims to scale up the social entrepreneurship programme by creating regional hubs (alumni) who are localizing the network. These entrepreneurs reached out to 4,098 people intensively, 7,237 people extensively and 35,850 people through online engagement. The project nurtures young social entrepreneurs to build their capacities by developing themselves, strengthening their organisations and creating lasting social impact and creating a network of peers that can support each others' journey, create a ground for more jobs and nurture more entrepreneurs by supporting local youth-led initiatives. The target age group is 18 – 35 years.	
<b>Impact:</b> These entrepreneurs reached out to 4,098 people intensively, 7,237 people extensively and 35,850 people through online engagement	
<b>SDG Indicators (Reference NITI-Aayog):</b> Annual growth rate of GDP per capita (at constant price of 2011-12), Average unemployment rate per 1000 persons for males and females	

<b>C) Project Title: Kala: A Skill Development Project</b>	
Name of the Organization: KHUSHII (Kinship for Humanitarian Social and Holistic Intervention in India)	
<b>Thematic Area:</b> Promotion of education, special education and vocational skills <b>Sub Thematic Area:</b> Skill Development	<b>Funding:</b> NA <b>Implementing Partners:</b> NA <b>Location:</b> Delhi, Maharashtra, Haryana, Rajasthan and Karnataka <b>Duration:</b> Implemented in 2018-19
<p><b>Summary of Organization:</b> Kinship for Humanitarian Social and Holistic Intervention in India (KHUSHII) is an independent Not for Profit Organisation founded in 2003 by Cricket legend Mr. Kapil Dev and his philanthropic partners. They are a self-implementing organization registered under the Societies Registration Act. Their distinctive goal is to empower women and children from poor and marginalised communities both in rural and urban India leading to improved life of dignity through Education, Economic Empowerment and better health facilities. Over the last decade, KHUSHII has impacted more than 15.5 Lakh lives in their fight against poverty, abandonment and social neglect.</p> <p>Given that today's students will be tomorrow's citizens, leaders, workers, and parents, a good education is an investment with enduring benefits. But providing education is not enough. What is important, and what generates a real return on investment, which is learning and acquiring skills. This is what truly builds human capital. KHUSHII delivers through well planned and comprehensive projects in Remedial education, Skill Development &amp; Livelihood, Health &amp; Nutrition and Sanitation.</p> <p><b>Project Synopsis:</b> The project 'Kala' of KHUSHII is designed to empower the community through more responsive and relevant interventions in NSDC approved Skill Development courses resulting in enhanced income. Currently, the project is being implemented in: Under the Kala project, KHUSHII is offering varied skill development courses for women and youth from low-income families. It has shown a direct impact on them with an opportunity to enhance their skill, knowledge and become financially independent. These courses are National Skill Development Corporation (NSDC) approved Job roles in Self Employed Tailoring, General Duty Attendant and Assistant Beauty Therapist as per the National skill qualification framework. Onboarding of third party agency for skill assessment has been done. KHUSHII mobilised these beneficiaries from their homes to join the courses. During the mobilization phase, an in-depth understanding is developed about the specific needs of the skill and aspirations of the beneficiaries.</p> <p><b>Impact:</b> 417 Women</p> <p><b>SDG Indicators (Reference NITI-Aayog):</b> Annual growth rate of GDP per capita (at constant price of 2011-12), Average unemployment rate per 1000 persons for males and females</p>

## Way Forward

This report establishes the importance of credible organisations, implementation processes, instruments and adequate funding. Refocusing the SDG thrust areas to calibrate the SDG alignment of NGOs surfaces as the major learning of the project.

- NGOs thrust towards SDGs (1,3,4,5, 8) ties well with Haryana's performance in SDG India Index 2019, wherein it is a performer in the SDG (3, 4, 8) and scores the lowest in SDG (1, 5). These SDGs (1,3,4,5,8) emerge as the key SDG focus of our study as well, establishing strong linkages with the state's SDG performance.
- While there have been improvements in SDGs (7, 9, 11), it remains an aspirant in these SDGs as compared to the rest of the states. These SDGs could be targeted to fast track the achievement, given the rapid progression.
- Haryana's performance remains unchanged for SDGs (6, 10, 15, 16) across the two years and neither are they addressed through the work of NGOs, highlighting a knowledge and action gap which needs to be bridged.
- Our study highlights only 5% of projects which are being implemented in convergence with Government Agencies. Given the resources and authority that a government agency brings in, targeting a higher percentage of convergence will help in maintaining the NGOs alignment with SDGs.
- The spatial skewness observed in the funding and number of projects/ organisations catering to SDGs achievement needs to be addressed by encouraging the districts to conduct regular consultations with the NGOs to communicate about the problem areas and challenges. There must be a more balanced approach where the work can be expanded to other regions. The aspirational district of Nuh needs to receive more focus.
- It is also important to identify why some NGOs are deliberately not mobilizing around SDGs. Identifying the SDG champions and sharing of their practices could enhance the SDGs alignment of NGOs through peer-learning. This study provides examples that aim to inspire action, to make the case for the concrete impacts achieved by applying the SDGs, and to encourage mutual learning.
